CAREER OBJECTIVE

A Creativity-driven Engineering Student who learns new technologies by building real working products. Hands-on across FastAPI-Python, SpringBoot-Java, REST APIs, REACT with working projects. Strong DSA foundation (250+ problems on Leetcode). Eager to work across Full Stack, Python and Java development. Thrives in both collaborative and independent environment to bring new perspective to find faster and smarter solutions

EDUCATION

Saveetha Engineering College, Thandalam

Bachelor of Information Technology CGPA: 8.15

2023-2027(Expected)

Hindu Colony Chellamal Vidhyalaya, Nanganallur

HSC Percentage: 87.2

2022-2023

SSC Percentage: 85.66

2020-2021

PROJECTS

BlackberryBot Apr - May 2025

[GitHub Link](#)

- Developed a chatbot using Flask supporting conversational interaction and document based Q&A
- Implemented PDF summarization and quiz generation using Hugging Face Transformers (t5-small) and integrated Spacy for NLP processing and PyMuPDF for efficient PDF parsing

Waffles Jun - Aug 2025

[GitHub Link](#)

[Hosted Link](#)

- Built a full-stack real-time chat application using WebSockets for instant messaging
- Implemented secure user authentication with bcrypt-based password hashing

Tracelet Oct - Dec 2025

[GitHub Link](#)

- Created an indoor navigation web application using images(blueprints) by using Digital Image Processing Techniques such as Thresholding and using A* algorithm in pixel range for efficient path finding
- Has an Inbuilt Map for indoor Navigation inside Saveetha Engineering College campus.

Object Oriented Design Practice Feb - April 2026

[GitHub Link](#)

- Designed UML Class Diagrams and created Low level designs for Parking management System, Bus Pass Management System using Factory Patterns
- Gained hands-on knowledge of Object Oriented Programming

SKILLS

- **Programming Languages** : Python, Java
- **Database**: MongoDB, MySQL, Oracle Sql
- **Full Stack**: FastApi, SpringBoot, React, Django

CERTIFICATIONS

- **Oracle** - Oracle Sql developer certification - Nov 2025
- **Coursera** - Introduction to Java Programming - Aug 2025
- **Infosys** - Programming Concepts in Python - Jan 2025
- **Infosys** - Full stack with django and Angular - July 2024
